# What is the goal of doing a research?

Why are you doing your research?

What do you aim to achieve?

(Class Participation)

# What is the goal of doing a research?

The ultimate objective of research is not merely to generate new knowledge, but *to provide **meaningful value and rigorous insights** that benefit the broader community.*

# What value does your research bring?

Reflect on what value does your paper bring to the table.  
The size of the community who will benefit from this value  
determines the extent of the impact of your study.

(Class Participation)
